INDUSTRY LEADER GIVES BACK TO COMMUNITY

ATS Communications Provides Support to Local Chapter of Make-A-Wish Foundation

SACRAMENTO, CA — November 8, 2010 — ATS Communications, an industry leader in Unified Communications, announced today that they will be teaming up with one of their Bay Area customers, the Make-A-Wish Foundation to assist with their upcoming radiothon fundraising event.. ATS will provide all of the necessary telephone equipment for their phone bank volunteers for the radiothon.

The WishBone is a unique “roof sit” radiothon hosted by radio station 107.7 The Bone to help raise funds for the Greater Bay Area Make-A-Wish Foundation, which grants wishes to children with life-threatening illnesses. As one of the most well respected charities in the world, the Make-A-Wish Foundation has set an ambitious goal of raising \$500,000 in contributions, with one hundred percent of the proceeds going to the local Make-A-Wish Chapter.

“Part of our founding philosophy is to be involved in the community and to give back whenever possible,” stated John Zeller, President of ATS Communications. “Over the years we’ve partnered with a number of non-profit organizations to help

advance the community and when the opportunity to help with this event was presented to us, we happily accepted.. They are doing some phenomenal things for our community and we’re proud to be able to help such an impactful organization.”

Brian Suerth, Executive Vice President and Partner of Technology Assurance Group, an organization that delivers best practices to Voice VARs, Data VARs and Managed Service Providers, which ATS is a member, stated, “It’s inspiring to see companies like ATS stepping back and seeing the bigger picture. We haven’t encountered too many companies that continue to give back to their community despite being in the midst of a recession. It’s truly a testament to the strong values upon which the company was founded and it says a whole lot about the character of the individuals at ATS. We’re proud to be associated with such a fine organization,” added Suerth.

ATS Communications works with northern California businesses to help SMB enterprises implement the right technology to gain a competitive advantage and make a positive impact to their bottom line.

ABOUT ATS COMMUNICATIONS

ATS Communications is a business’ complete voice and data partner with expertise on a wide range of of voice and data products. Their services match small and medium size enterprises with optimized technology that provide best business practices.
