ATS Wins Technology Industry's Two Top Awards

Technology Assurance Group and Intermedia Recognize ATS for Superior Performance

CONCORD, CA — April 18, 2022 — ATS, a leading managed technology services provider, announced today that the company received Technology Assurance Group's top award at the 21st Annual TAG Convention held in Scottsdale, AZ. Technology Assurance Group (TAG), an organization of leading managed technology services providers in the United States and Canada representing \$800 million in annual products and services, selected ATS as the winner of the Outstanding Economic & Customer Satisfaction Award. ATS received the recognition during an awards ceremony attended by TAG's Member companies and leading technology manufacturers.

Additionally, at a private event held last month, Intermedia, an industry leading and highly respected cloud communications company, presented the Intermedia Partner Accelerate High Flyers Award to ATS distinguishing them as one of their top national UCaaS (Unified Communications as a Service) Partners. ATS was one of only 17 companies out of 3,100 Intermedia UCaaS providers to receive this recognition.

The industry holds both awards in the highest regards and is only given out once per year. Intermedia's award is a direct result of ATS helping clients move to a cloud-based phone solution solving the business challenge their clients were facing of wanting for a more all-inclusive voice solution that works well in a hybrid or work from home business model. TAG's Outstanding Economic & Customer Satisfaction Award was selected based on ATS' exceptional economic performance and superior customer satisfaction. "When you place the customers' needs ahead of your own, it's incredible how it positively impacts your own business. By taking time to understand our client's business and listening to their challenges, our team works to match the best technology available in the market and implement these solutions with a strong focus on customer service. By consistently exceeding our customers' expectations, we have developed quite a reputation in the community," said Sanford Gladding, President of ATS. "When our customers can rely on us to be their trusted technology advisor, we experience unfaltering customer loyalty."

"ATS is dedicated to increasing their customers' profitability, enhancing their employees' productivity and giving them a competitive advantage

through the utilization of technology," said Brian Suerth, President of Technology Assurance Group. "Sanford leads a team that is committed to the success of its customers, and his customers know this. That's exactly why they keep coming back."

ABOUT ATS COMMUNICATIONS

ATS is a technology solutions provider that partners with businesses to implement the latest enterprise networking and IT infrastructure, unified communications, cyber-security, business continuity, video surveillance and cloud infrastructure. These products and services are delivered as a proactive managed service model providing peace of mind that all critical business systems meet expectations of high availability, security and optimization. With expertise on a wide range of voice and data products, ATS Communications is a business' complete voice and data partner. Their services match the needs of small and medium size enterprises with optimized technology that provide best practice solutions which creates a competitive advantage and makes a positive impact to the client's bottom line. With over 40 years of experience, ATS has gained an excellent reputation for designing,

implementing and proactively supporting solutions that focus on converging voice and data applications and has been recognized for outstanding performance by several of the industry's top manufacturers. These credentials have allowed ATS to grow and partner with businesses throughout Northern California and across the United States. ATS has three California offices located in Concord, Sacramento and Redding. For more information, call their corporate office in Concord at (925) 602-1500 or visit www.teamats.com .
