Smart Media Phone

ZIP 49G

Quick Start Guide

Packaging Contents

The following items are included in your package. If you find anything missing, contact your system administrator.

IP Phone

Handset

Handset Cord

Ethernet Cable
(2m CAT5E FTP cable)

Stand

Camera
(Optional)

Quick Start Guide

Power Adapter
(Optional)

Wall Mount Bracket
(Optional)

Note: The USB camera is an optional accessory for the ZIP 49G IP phone.

We recommend that you use the accessories provided or approved by ZULTYS. The use of unapproved third-party accessories may result in reduced performance or damage.

Assembling the Phone

1. Insert the optional camera, as shown below:

Adjust Shutter Switch

Adjust Camera Angle

Note: The optional camera can only be connected to the USB port on the top of the phone.

2. Attach the stand and adjust the angle of touch screen, as shown below:

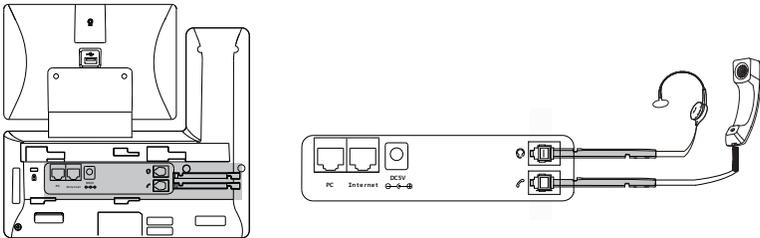

3. Attach the optional wall mount bracket, as shown below:

Note: The reversible tab has a lip which allows the handset to stay on-hook when the phone is mounted vertically.

4. Connect the handset and optional headset, as shown below:

Note: Headset purchased separately. The ZIP 49G may also be used with compatible Bluetooth & USB headsets

5. An optional USB flash drive may be connected as shown below:

Note: The USB port (on the rear of the phone) can also be used to connect ZIP 450M Expansion Modules or a compatible USB headset.

6. Connect the power adapter or PoE, as shown below:

Note: The IP phone should be used with a ZULTYS original power adapter (5V/2A) only or connected to an IEEE 802.3af compliant PoE switch. The use of a third-party power adapter may cause damage.

7. Connect to the network, as shown below:

There are two options for network connection. Your system administrator will advise you which one to use.

a) Connect to the wired network:

Note: If you are connecting a PC to your phone, we recommend that you use the Ethernet cable provided by ZULTYS.

b) Connect to the wireless network (Phone must be connected to power adapter):

- 1) Swipe down from the top of the screen to enter the control center.
- 2) Tap **Settings**->**Basic**->**Wi-Fi**.
- 3) Tap the **On** radio box in the **Wi-Fi** field.
The phone will automatically search for available wireless networks in your area.
- 4) Select an available wireless network from the list of networks.
- 5) If the network is secure, enter its password in the **Password** field.
- 6) Tap **Connect** to connect to the wireless network.

Hardware Components

Item	Item	Item

	Shows that "Auto Answer" is turned on.
	Shows that you have missed calls.
	Shows that you have unread voice mails.
	Shows that ringer volume is set to "Silent".
	Shows that a USB flash drive is detected.

Using the Touch Screen

By default, the IP phone supports three idle screens. The home screen displays as below:

To navigate the touch screen:

- Swipe left or right to switch among different idle screens.
- Tap ◀ to go back to the previous screen.
- Tap ○ to return to the idle screen.
- Tap □ to view and manage recently used applications.

To change the wallpaper:

1. Long tap an empty spot on the idle screen.
2. Tap **WALLPAPERS**.
3. Select a desired picture.
4. Tap **Set wallpaper**.

To add a widget to the idle screen:

1. Long tap an empty spot on the idle screen.
2. Tap **WIDGETS**.
3. Drag the desired widget up/down/left/right to the desired destination on the idle screen.

Control Center and Notification Center

Swipe down from the top of the screen to enter the control center and the notification center.

Swipe up from the bottom of the screen to hide this screen.

Entering and Updating Data

To use onscreen keyboard:

1. Tap the input field, the onscreen keyboard will display on the touch screen:

Tap to access input options to configure Input Languages or Android Keyboard Settings(AOSP).

2. When you finish entering, tap  to hide the onscreen keyboard.

To use keypad:

Dial or enter number.

To select a field option:

Tap the field name, tap the desired option in the pop-up dialog box.

Basic Call Features

Placing a Call

Using the handset:

1. Pick up the handset.
2. Enter the number, and then tap **Send**.

Using the speakerphone:

1. With the handset on-hook, enter the number.
2. Then press  or the **Send** soft key.

Using the headset:

1. With the headset connected, press  to activate the headset mode.
2. Enter the number, and then tap **Send**.

Answering a Call

Using the handset:

Pick up the handset.

Using the speakerphone:

Press  or the **Answer** soft key.

Using the headset:

Press  or the **Answer** soft key if headset mode is active.

Controlling Video During a Video Call

To change the video view:

- Tap **Full Screen** to display the video in full screen.
- Tap  to return.

To turn on/off near-end video during a call:

Swipe down from the top of the screen to enter the control center, tap **Video** to turn on/off the near-end video.

Ending a Call

Using the handset:

Hang up the handset or tap the **EndCall** soft key.

Using the speakerphone:

Press  or tap the **EndCall** soft key.

Using the headset:

Tap the **EndCall** soft key.

Redial

- Press  to enter the **Placed Calls** list, and then tap the desired entry.
- Press  twice when the phone is idle to call the last dialed number.

Call Mute and Un-mute

- Press  to mute the microphone during a call.
- Press  again to un-mute the call.

Call Hold and Resume

To place a call on hold:

Press  or tap the **Hold** soft key during an active call.

To resume the call, do one of the following:

- If there is only one call on hold, press  or tap the **Resume** soft key.
- If there is more than one call on hold, tap the call you want to resume, and press  or tap the **Resume** soft key.

Call Transfer

You can transfer a call in the following ways:

Blind Transfer

1. Press  or tap the **Transfer** soft key during a call. The call is placed on hold.
2. Enter the number you want to transfer to.
3. Press  to complete the transfer. Alternatively press **Transfer** soft key for options.

Semi-Attended Transfer

1. Press  or tap the **Transfer** soft key during a call. The call is placed on hold.
2. Enter the number you want to transfer to, and then press .
3. Press  or tap the **Transfer** soft key when you hear the ring-back tone.

Attended Transfer

1. Press  or tap the **Transfer** soft key during a call. The call is placed on hold.
2. Enter the number you want to transfer to, and then press .
3. Press  or tap **Transfer** soft key when ready to complete transfer. Press **EndCall** to cancel.

Call Forward

To enable call forward:

1. Swipe down from the top of the screen to enter the control center.
2. Tap **Settings**->**Features**->**Call Forward**.
3. Select the desired forward type:
 - Always Forward**----Incoming calls are forwarded unconditionally.
 - Busy Forward**----Incoming calls are forwarded when the phone is busy.
 - No Answer Forward**----Incoming calls are forwarded if not answered after a period of time.
4. Enter the number you want to forward to. For **No Answer Forward**, tap the **After Ring Time** field, and then tap the desired ring time to wait before forwarding.
5. Tap  to accept the change.

Call Conference

1. During an active call, swipe left on the soft keys then tap **Conference**. The call is placed on hold.
2. Enter the number of the second party, and then press  or tap **Conference**.
3. Tap the **Conference** soft key again when the second party answers. All parties are now joined in the conference. Up to 4 audio calls may be conferenced by repeating steps 2 & 3.
4. Tap the **EndCall** soft key to disconnect all parties.

Note: You may add a held call to a conference by selecting it from the screen after tapping **Conference**.

Voice Message

A Message Waiting Indicator on the idle screen indicates that one or more voice messages are waiting on the voicemail service. The power indicator LED slowly flashes red.

To listen to voice messages:

1. Do one of the following:
 - Press .
 - If the 'New Voice Mail(s)' dialog is displayed press the Connect soft key.
2. Follow the voice prompts to listen to your voice messages.

Customizing Your Phone

Call History

1. Tap , and then select the desired call list on the left.
2. Drag up and down to scroll.
3. Tap  after the desired entry, and then you can do the following:
 - Tap **Send** to place a call.
 - Tap **Add** to add the entry to the local directory.
 - Tap **Edit** to edit the phone number of the entry before placing a call.
 - Tap **Blacklist** to add the entry to the blacklist.
 - Tap **Delete** to delete the entry from the list.

Contact Directory

To add a contact to Local Directory or Blacklist:

1. Tap , and then select the desired group on the left.
2. Tap  to add a contact.
3. Enter a unique contact name in the **Name** field and contact numbers in the corresponding fields.
4. Tap  to accept the change.

To edit a contact in Local Directory or Blacklist:

1. Tap , and then select the desired group on the left.

3. Edit the contact information.
4. Tap  to accept the change.

To delete a contact from Local Directory or Blacklist:

1. Tap , and then select the desired group on the left.
2. Tap  after the desired contact and then tap **Delete**.
3. Tap **OK** when the touch screen prompts "Delete selected item?".

Note: You can add contacts from call history. For more information, refer to **Call History** above.

Volume Adjustment

- Press  during a call to adjust the receiver volume of the handset/speakerphone/headset.
- Press  when the phone is idle or ringing to adjust the ringer volume.
- Press  to adjust the media volume in the corresponding screen.

FCC Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Caution

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

ISED Canada Statement

This product meets the applicable Innovation, Science and Economic Development Canada technical specifications.

Ce produit répond à la innovation, des sciences et de Développement économique Canada spécifications techniques applicables.

About Zultys

Zultys is the global provider of a true all-in-one unified communications solution. Innovative, reliable and scalable, Zultys IP phone systems integrate voice, video, data and mobility in a single premise based appliance or in the cloud - to optimize collaboration for businesses of all sizes.

Zultys delivers a powerful, feature-rich communications system that is easy-to-use, deploy and maintain. Zultys is headquartered in Silicon Valley with offices around the world.
